- can provide a written definition of culture.
- can analyze the multiple influences that have contributed to their own cultural makeup.
- can identify the different stages and symptoms of culture shock and coping strategies for this condition.
- can compare and contrast cultural differences in areas such as educational systems, gender roles, business practices, or the areas of the students’ interests.
- Given a cultural interaction, students can identify the underlying values of the participants. Film will provide episodes for students to analyze.
- will be able to understand ethnocentrism and to recognize stereotypical characterizations.
