Air Force ROTC cadet wing ranks in nation's top 5 for academic prowess

Utah State University’s Air Force Reserve Officer Training Corps (AFROTC) has the right stuff when it comes to its academic ranking.

The cadets of Detachment 860 were ranked No. 1 in cumulative GPA among all 34 AFROTC units in the Northwest Region, and No. 5 among all 145 ROTC units nationwide, said Lt. Col. Steven Smith, the wing’s commander and professor of Aerospace Studies.

The College of Humanities and Social Sciences is home to Aerospace Studies, as well as Military Science with its U.S. Army ROTC battalion.

The detachment also won the quarterly Cadre Team Excellence award at the national level. Its cadre, or faculty leadership team of Air Force officers, ranks No. 1 out of 145 detachments in leadership performance and is currently competing for a top honor at the Air University level, which includes all ROTC units as well as the Air Force Officer Training School in Maxwell Air Force Base in Montgomery, Ala.

Newly commissioned officers for the Air Force come from ROTC units, where cadets are commissioned as they graduate with a degree, or the OTS, which accepts officers-in-training who already have a degree, said Smith. USU’s AFROTC will commission nine new second lieutenants in a May 4 ceremony.

Last year, Detachment 860 reached No. 2 in cumulative GPA for the Northwest Region. “We let it be known that our priorities were academics first, physical fitness second and leadership throughout,” said Smith. “We’ve focused on those three priorities, and our cadets have responded to that.”

The 123 active cadets “are smart, physically fit, and — even better — they’re just really good people who are already doing really great things,” said Smith.

The wing has captured additional achievements this spring.

All of the 2018 second-year cadets were accepted for this summer’s national field training at Maxwell Air Force Base. The national selection rate was 88 percent.

“Acceptance to field training is a major step in a cadet’s university career,” said Cadet Col. Isabella Muffoletto, cadet wing commander. “It is a rigorous training program required for continued participation in an ROTC program and advancement to officer commissioning.”

USU also boasted a 100 percent selection rate for rated officer slots this year. Rated officers are officers who will
be piloting, navigating or performing other flying duties such as flying remotely piloted aircraft, said Smith.

The frosting on the cake came with the wing’s first-place win at the annual 2018 “Tri-Det” (Tri-Detachments) competition April 14 at the University of Utah. Aggie cadets bested competitors from the University of Utah, Brigham Young University and Utah Valley University in military knowledge, skills and athletic competitions.

Graduating 2018 cadets, who are commissioning May 4 as Air Force second lieutenants, are:

- **Jake Cottle**, M.S. in economics, assigned as an Intelligence Officer, 419th Reserve Unit, Hill Air Force Base, Utah.
- **Benjamin Johnston**, B.S. interdisciplinary studies, assigned as a pilot at Laughlin Air Force Base, Texas.
- **Brock Larson**, B.S. mechanical engineering, space operations officer at Buckley Air Force Base, Colo.
- **Isabella Muffoletto**, B.S. public health/industrial hygiene, assigned as a bioenvironmental engineering officer with the Biomedical Sciences Corps, Eglin Air Force Base, Flo.
- **Daniel Peterson**, B.S. nursing, assigned as a nursing officer at Nellis Air Force Base in Nevada.
- **Kajler Rask**, B.S. conservation and restoration ecology as a security forces officer at Minot Air Force Base, N.D.
- **Andrew Shaw**, B.S. mechanical engineering, assigned as a civil engineering officer at Fairchild Air Force Base, Wash.
- **Rudolf Von Niederhaursern**, B.S. electrical engineering, assigned as an electrical engineering officer at Kirtland Air Force Base, N.M.
- **Destry Wride**, B.S. international studies, intelligence officer at Goodfellow Air Force Base in San Angelo, Texas.
